

Quality Management Policy

Overleaf Publishers Ltd — Vocational Training Quality Assurance

Document Ref	Version	Issue Date	Next Review
Quality Management Policy	1.0	July 2026	July 2027

1 | Policy Statement

Overleaf Publishers Ltd is committed to delivering vocational chainsaw safety training of the highest quality, consistent with the standards and frameworks of the International Institute of Risk and Safety Management (IIRSM) and the Royal Society for the Prevention of Accidents (RoSPA). The company continually evaluates and improves its training materials, assessment processes, and learner experience to ensure the highest standards of accuracy, relevance, and effectiveness.

2 | Quality Objectives

- Ensure all training content is accurate, current, and aligned with relevant legislation, HSE guidance, and national occupational standards
- Maintain a minimum learner satisfaction rating of 4.0 out of 5.0 across all post-course feedback
- Achieve a first-attempt examination pass rate of 70% or higher across all learner cohorts
- Review and update all course content within 30 days of any change to relevant legislation or guidance
- Maintain current approval status with IIRSM and seek RoSPA qualification recognition
- Ensure all platform functions are tested and verified prior to deployment
- Respond to all quality-related complaints within 5 working days

3 | IIRSM Alignment

The chainsawcourses.com platform has been submitted for IIRSM eLearning Course Approval under the No-Trainer category. Compliance with IIRSM requirements is maintained through:

IIRSM Requirement	How We Comply
Qualified and experienced author/developer	David J Daniel — 27+ years industry experience, NPTC 0039-20, LANTRA instructor, NPTC assessor (8 years)
Mapped to National Occupational Standards	All modules independently mapped to UK NOS for Chainsaw Operations
Defined learning outcomes per module	7 modules each with discrete, measurable learning outcomes
Robust assessment mechanism	45-question randomised summative examination; 80% pass threshold; unlimited resits
Quality assurance process	Content reviewed against AFAG series and NPTC 0039-20; annual review cycle
Learner feedback mechanism	Post-examination feedback form captures satisfaction data; results reviewed quarterly
Version control and documentation	Course versioned (currently v1.4); change log maintained; submission documentation held on file
Data protection compliance	GDPR-compliant data handling; separate Data Protection Policy in force

4 | RoSPA Alignment

Overleaf Publishers Ltd is working toward RoSPA qualification recognition and ensures its quality framework is consistent with RoSPA's standards for approved training providers. Key alignments include:

RoSPA Standard	Our Approach
----------------	--------------

Organisational policies and procedures	Full policy suite in place: H&S, Quality, EDI, Assessment, Appeals, Malpractice, Data Protection, Complaints, Safeguarding
Qualified assessment personnel	Assessments designed and validated by NPTC 0039-20 holder with 8 years NPTC assessment experience
Internal verification	Assessment content verified internally prior to deployment; external moderation considered for future cohorts
Reasonable adjustments	Written policy and procedures for learners with additional needs — see Reasonable Adjustments Policy
Appeals and complaints	Formal appeals and complaints procedures with defined timescales — see Appeals Policy and Complaints Procedure
Malpractice management	Defined policy covering academic dishonesty and platform misuse — see Malpractice Policy
Equality and diversity	Active EDI policy; platform designed for accessibility (WCAG 2.1 AA)
Safeguarding	Safeguarding policy in place; platform does not store sensitive personal data beyond operational requirements

5 | Content Quality Assurance

5.1 Content Development Standards

- All content cross-referenced against current HSE AFAG guidance, NPTC 0039-20 unit specifications, and the Overleaf Chainsaw Manual
- Quiz and examination questions mapped to specific learning outcomes and reviewed for clarity, accuracy, and fairness
- Vimeo-hosted instructional videos reviewed for technical accuracy prior to publication
- Written module content proofread and verified by the author before deployment
- Diagrams and reference materials (chain identification chart, inspection checklist, risk assessment) validated against industry standards

5.2 Assessment Quality Standards

- Examination questions held in a randomised bank of 90+ questions; 45 presented per attempt
- Questions reviewed annually and updated to reflect legislative or industry changes
- Pass threshold set at 80% in line with vocational industry standards
- Unlimited resit attempts supported to ensure learners are not permanently excluded from certification
- Results recorded in a secure database with full audit trail

5.3 Platform Quality Standards

- Platform tested across Chrome, Safari, Firefox, and Edge prior to each version release
- Device-lock security tested to prevent unauthorised sharing of activation codes
- Video watermarking verified to function correctly on all supported browsers
- Heartbeat progress tracking validated to record and restore progress accurately

6 | Monitoring & Continuous Improvement

Quality performance is monitored through the following mechanisms:

Measure	Frequency	Action Trigger
Learner satisfaction feedback review	Quarterly	Score below 4.0/5.0 — content review initiated
Examination pass rate analysis	Quarterly	Rate below 70% — question and content review
Platform error and uptime monitoring	Continuous	Any outage exceeding 1 hour — incident report raised
Legislative and guidance monitoring	Monthly	Any relevant change — content update within 30 days
Full policy and content review	Annual (July)	Completion of review cycle — version incremented

IIRSM approval status review	Annual	Renewal submission prepared and submitted
Learner complaint analysis	Per complaint	Root cause analysis; corrective action within 10 days

7 | Document Control

All quality-related documents are version-controlled and stored securely. The current version of each policy document is published on the chainsawcourses.com platform and available to learners on request. Previous versions are archived for a minimum of 3 years.
