

Quality Management System — Policy and Framework

Overleaf Publishers Ltd · Co. No. 15735226 · VAT No. 479581629 · Version 1.0 · July 2026 · chainsawcourses.com

1. QUALITY POLICY STATEMENT

Overleaf Publishers Ltd is committed to designing, developing, and delivering the Chainsaw Courses eLearning platform to the highest standards of educational quality. The Director has ultimate responsibility for quality and commits the organisation to: consistently meeting applicable requirements (regulatory, accreditation, and learner); continually improving the effectiveness of the quality management system; and placing learner outcomes and safety at the centre of every product and process decision.

This document constitutes the organisation's quality manual. It sets out the scope of the QMS, the processes within it, and the policies and procedures governing each. All associated procedures and records are controlled under the Document Control and Records Management Procedure.

2. CONTEXT OF THE ORGANISATION

Internal context:

- A micro-enterprise led by a sole director with direct operational control of all QMS processes.
- All course content authored by or under direct supervision of a qualified chainsaw professional (NPTC certified).
- Digital-only delivery model; no physical training venues.
- Remote-first structure with reliance on specialist contractors for platform development and content review.

External context:

- Regulatory: HSE/FISA guidance, UK Health and Safety legislation, IIRSM and RoSPA accreditation requirements.
- Market: growing demand for online pre-qualification chainsaw training; increasing regulatory scrutiny of eLearning safety courses.
- Technology: cloud platform dependency (Replit, Vimeo); evolving cybersecurity threat landscape.
- Competitive: established online health-and-safety training providers; NPTC assessment centres offering bundled theory content.

Interested parties and their requirements:

INTERESTED PARTY	KEY REQUIREMENTS
Learners	Accurate, engaging, current content; reliable platform; fair assessment; responsive support
IIRSM	Compliance with eLearning course approval standards; documented QMS; regular review evidence
RoSPA	Rigorous content accuracy; qualified authorship; evidence of learner outcomes

Chainsaw Courses

CHAINSAW MAINTENANCE & CROSS CUTTING · OVERLEAF PUBLISHERS LTD

HSE / FISA	Course content aligned with current guidance; no propagation of unsafe practices
Forestry Commission / APHA	Accurate biosecurity and plant health information in platform tools
Payment processors	Compliant terms, refund policy, and consumer rights adherence
ICO / UK GDPR	Lawful data processing; breach notification; data subject rights fulfilment

3. SCOPE

The QMS applies to all activities of Overleaf Publishers Ltd affecting the quality of the Chainsaw Courses product and services: course content design, development, and review; assessment design and administration; platform operation and technical support; learner registration and progress management; supplier and contractor management; document and records management; and regulatory compliance. Exclusion: physical manufacturing operations are not applicable.

4. QUALITY OBJECTIVES AND KPIS

OBJECTIVE	KPI / TARGET
Accurate, current course content	Zero unresolved content accuracy complaints; annual review completed on schedule
Reliable platform availability	"e99% uptime 08:00–22:00 UK time
Learner satisfaction	"e85% satisfaction score on post-module feedback surveys
Prompt learner support	100% emails acknowledged "d2 working days; resolved "d5
IIRSM course approval maintained	Renewal submitted on time; zero unresolved compliance findings
Fair and reliable assessment	100% module-quiz requirement; 80% final-exam pass threshold; zero upheld appeals per year
Internal audits completed	100% of planned audits; all findings closed within agreed timescales
Controlled document reviews	100% of controlled documents reviewed within review cycle
Supplier approval	100% of new suppliers approved pre-engagement; annual review of key suppliers

5. PROCESS APPROACH

PROCESS	INPUT !' OUTPUT
Learner Enrolment	Purchase !' Active device-bonded learner record
Course Delivery	Learner access !' Completion of modules, quizzes, and assessments
Assessment Administration	Quiz attempts !' Results, progress records, and certification triggers
Content Design and Development	Subject matter + legislation !' Published course module
Content Review and Update	Trigger event !' Updated and version-controlled content
Internal Verification	Assessment materials !' IV sign-off records
Learner Support	Learner query !' Acknowledged and resolved query record
Complaints and Appeals	Complaint/appeal !' Investigation outcome and corrective action
Supplier Management	Supplier need !' Approved supplier register entry
Internal Audit	Audit schedule !' Audit reports and corrective actions
Management Review	QMS performance data !' Management review minutes and decisions
Document Control	Change request !' Approved, distributed, and archived document

6. CUSTOMER FOCUS AND SATISFACTION

Learner satisfaction is monitored through: in-platform post-module feedback surveys; complaints received via email; assessment appeals; and informal feedback. Data is collated quarterly, analysed for trends, and reported at each management review. Actions arising from feedback are logged in the quality improvement register and tracked to completion.

7. DESIGN AND DEVELOPMENT CONTROLS

GATE	CRITERIA
G1 — Draft Complete	All learning objectives addressed; cross-referenced against HSE/FISA guidance; SME review
G2 — Assessment Alignment	Quiz questions mapped to learning objectives; rationale documented; pass threshold validated
G3 — Internal Verification	IV assessor sign-off on content accuracy and assessment validity

Chainsaw Courses

CHAINSAW MAINTENANCE & CROSS CUTTING · OVERLEAF PUBLISHERS LTD

G4 — Director Approval	Director review and sign-off; version number assigned; Document Register updated
G5 — Platform Deployment	Staging testing completed; functional testing passed; production deployment authorised
G6 — Post-Publication Review	30-day feedback review; issues logged as nonconformances

8. SUPPLIER AND EXTERNALLY PROVIDED SERVICES

SUPPLIER / SERVICE	CONTROLS
Replit (cloud hosting)	SLA monitoring; platform uptime tracking; business continuity coverage
Vimeo Pro (video delivery)	Domain-restricted embeds; CDN uptime monitoring; quality checks on upload
Shopify / Stripe (payments)	PCI-DSS compliance verification; tested checkout flows; refund policy compliance
OpenAI via Replit (AI examiner)	Topic restriction prompt engineering; fallback responses; content review
Printers (physical manual)	FSC certification verification; sample quality check; delivery timescales confirmed
Contractors (content review)	Qualification verification; written brief; review output sign-off; confidentiality agreement

9. NONCONFORMANCE AND CORRECTIVE ACTION

All nonconformances are: detected and recorded; contained where immediate action is possible; investigated using root cause analysis; subject to corrective action planning and implementation; verified for effectiveness; and closed with evidence. Trends are reviewed at each management review. Full detail in the Nonconformance and Corrective Action Procedure.

10. INTERNAL AUDIT

Internal audits of the QMS are scheduled and conducted at planned intervals (minimum annually) and ad hoc following significant events. Audits are planned, conducted, reported, and followed up under the Internal Audit Procedure. Results are reported to the management review. Where independence is required, an appropriately qualified external auditor may be commissioned.

11. MANAGEMENT REVIEW

The Director conducts a formal management review at least annually. Inputs include: KPI performance; nonconformance and corrective action status; internal audit results; learner feedback; supplier performance; risk register review; regulatory and accreditation changes; and improvement opportunities. Outputs include quality objectives, resource allocation, policy changes, and improvement actions. Records retained for a minimum of 7

years.

12. CONTINUAL IMPROVEMENT

Improvement opportunities are identified from: learner feedback; complaints and appeals; internal audits; management review outputs; nonconformance analysis; regulatory guidance; and staff/contractor suggestions. All improvement actions are logged in the quality improvement register with an owner, target date, and tracked to completion.

13. DOCUMENT CONTROL

This document is controlled under reference QMS-001, reviewed annually as part of the management review, and approved by the Director prior to each issue. Previous versions are archived in the Document Register.
