

IIRSM Course Approval

Risk Management & Leadership Competency Framework — Course Alignment

Chainsaw Cross-Cutting — eLearning (no trainer)

Document Date	30 July 2026
Version	1.0
Course Format	eLearning (no trainer)
Application Type	New to IIRSM Course Approval
Approval Sought	Initial 18-month approval (1–5 courses)
Framework Source	IIRSM Risk Management and Leadership Competence Framework (official)

1. PURPOSE OF THIS DOCUMENT

This document maps the content of the Chainsaw Cross-Cutting eLearning course against the IIRSM Risk Management and Leadership Competence Framework. It identifies, for each applicable competency area, the specific framework statement at Operational (Associate) level that the course addresses, together with the modules through which that competence is developed. It is prepared to support the IIRSM Course Approval application submitted via SurveyMonkey.

2. COURSE SCOPE AND POSITIONING

This eLearning course provides the theoretical knowledge and understanding required to support candidates preparing for the NPTC Unit CS30 / CS31 practical chainsaw certification. It does not constitute legal authorisation to operate a chainsaw and does not replace the mandatory practical assessment conducted by a LANTRA or NPTC-approved assessor.

The course operates at the Operational level of the IIRSM framework — developing knowledge and understanding with some application — consistent with the Associate membership grade. No Managerial or Strategic competences are claimed.

3. COURSE MODULES OVERVIEW

COURSE REQUIREMENTS	Equipment List (M8)
STANDARDS & REGULATIONS	PPE & First Aid (M9) · 5 Steps To Risk Assessment (M10) · Hazards & Risks (M11) · Emergency Planning Information (M12) · Law & Regulations (M13) · Chainsaw Safety Features (M14)
CHAINSAW MAINTENANCE	Battery Chainsaws (M40) · Air Filter (M15) · Spark Plug (M16) · Cooling System (M17) · Exhaust (M18) · Fuel & Oil Filters (M19) · Oiling System (M41) · Recoil Starter (M20) · Clutch Assembly (M21) · Sprocket (M22) · Chain Brake (M23) · Guidebar (M24) · Chain Basics–Sharpening (M25–M29)
CROSS-CUTTING TECHNIQUES	Kickback (M42) · Work Positioning (M31) · Pre-Start Checks (M32) · Starting The Chainsaw (M33) · Pre-Use Checks (M34) · Cutting Basics (M35) · Tension & Compression (M36) · Releasing A Trapped Chainsaw (M37) · Bore Cutting (M38) · Oversized & Tensioned Timber (M39) · Stacking (M30) · Additional Cuts (M43)

4. COMPETENCY FRAMEWORK MAPPING (Operational / Associate level throughout)

Only competency areas genuinely addressed by this course are included. The three domains of the IIRSM framework are: Technical Competences (orange), Leadership Behaviours (teal), and Business Competences (navy). Framework statements are quoted or paraphrased directly from the IIRSM Risk Management and Leadership Competence Framework at the Operational (Associate) level.

Domain	Competency Area	Framework Statement (Operational)	Modules Covered
Technical Competence	The role of risk management	Identifies, assesses and controls risks in day-to-day activities and within projects.	5 Steps To Risk Assessment (M10) · Hazards & Risks (M11) · PPE & First Aid (M9) · Chainsaw Safety Features (M14) · Kickback (M42) · Pre-Start Checks (M32) · Pre-Use Checks (M34) · Tension & Compression (M36) · Bore Cutting (M38) · Oversized & Tensioned Timber (M39)
Technical Competence	Strategy, objectives, policy & procedures	Supports others to work using established risk policies and procedures in day-to-day activities. Identifies and escalates opportunities to improve risk policies and procedures.	Law & Regulations (M13) · PPE & First Aid (M9) · Pre-Start Checks (M32) · Pre-Use Checks (M34) · Work Positioning (M31) · Chain Brake (M23)
Technical Competence	Stakeholder engagement	Provides technical advice to support collaborative working across different functions. Encourages stakeholders to adopt risk principles.	Emergency Planning Information (M12) · PPE & First Aid (M9) · Hazards & Risks (M11)
Technical Competence	Data management	Collects and sorts data in accordance with company standards and legislation. Carries out preliminary analysis assessing the reliability of data.	Pre-Start Checks (M32) · Pre-Use Checks (M34) · 5 Steps To Risk Assessment (M10) — learners collect and record inspection and risk data as part of structured checklists.
Leadership Behaviour	Communicative	Listens to instructions and asks questions if in doubt. Captures and presents information on operational performance in a way which is understood by others.	Emergency Planning Information (M12) · Hazards & Risks (M11) · Work Positioning (M31) · Stacking (M30)
Leadership Behaviour	Systematic	Plans work, selecting appropriate methods to meet objectives and KPIs. Undertakes work in accordance with agreed work methods and procedures. Reviews activities regularly.	5 Steps To Risk Assessment (M10) · Pre-Start Checks (M32) · Pre-Use Checks (M34) · Starting The Chainsaw (M33) · Work Positioning (M31) · Chain Tension (M26) · Chain Sharpening (M29) · Bore Cutting (M38) · Additional Cuts (M43)
Leadership Behaviour	Determined	Delivers consistently and professionally and overcomes challenges, applying alternative methods when needed. Focuses on the delivery of work objectives without compromising values or behaviours.	Releasing A Trapped Chainsaw (M37) · Oversized & Tensioned Timber (M39) · Cutting Basics (M35) · Tension & Compression (M36) · Kickback (M42)
Leadership Behaviour	Ethical	Demonstrates positive behaviours. Recognises inappropriate behaviours and raises concerns appropriately.	Law & Regulations (M13) · PPE & First Aid (M9) · Chain Brake (M23) · Work Positioning (M31) — course emphasises legal and safe conduct as non-negotiable.
Leadership Behaviour	Innovative	Contributes to discussions on new ways of working to resolve challenges and suggests opportunities. Open to learning from others.	Battery Chainsaws (M40) · Additional Cuts (M43) · Bore Cutting (M38) · Releasing A Trapped Chainsaw (M37)
Business Competence	Compliance and legal responsibility	Demonstrates an awareness of the key aspects of internal and external rules, regulations, and obligations that the organisation must comply with. Understands sources of change to legal, regulatory and contractual obligations.	Law & Regulations (M13) · Chainsaw Safety Features (M14) · PPE & First Aid (M9) · Chain Brake (M23) — covering HSWA 1974, PUWER 1998, MHOR 1992, COSHH 2002, PPE Regulations, BS EN 381 series.
Business Competence	Governance and culture	Understands their role and responsibilities in supporting effective governance. Acts as a role model for others and behaves ethically and with integrity.	Law & Regulations (M13) · Pre-Start Checks (M32) · Pre-Use Checks (M34) · PPE & First Aid (M9) · Equipment List (M8)

5. QUALITY ASSURANCE — EVIDENCE FOR IIRSM

Delegate Feedback	Module-level star ratings and written comments collected after each module. Course-level feedback collected on completion. All records are timestamped and stored in a tamper-evident database. Minimum 12-month retention. Exportable on request.
Feedback into Course Development	Feedback is reviewed quarterly by the course developer. A dedicated admin dashboard provides exportable feedback reports. Course content is updated following patterns of negative feedback or any change to relevant legislation or HSE/FISA guidance.
Assessment Records	All quiz attempts, scores, and pass/fail outcomes are stored per learner with full timestamps. Mock and final exam results are retained separately. All data is exportable via the Google Sheets backup system for external audit.
Learner Progress & Completion	Platform tracks video watched status, quiz pass status, and timestamps for each of the 35 modules per learner. A completion certificate bearing the course title is issued only upon full course and final exam completion.
Platform Access for IIRSM Assessors	IIRSM assessors will be granted: (a) a full learner account to experience the course as a delegate, and (b) a read-only admin account to review all learner data, feedback, quiz scores, and assessment records.

6. DECLARATION

I confirm that the information provided in this document and the accompanying IIRSM Course Approval application is accurate and complete to the best of my knowledge. The course content aligns to the IIRSM Risk Management and Leadership Competence Framework at the Operational (Associate) level as mapped above. I undertake to notify IIRSM of any material changes to course content or organisational policies during the period of approval.
